

# SOWING CALENDAR

## Vegetables and herbs

**Sowing indoor**

window sill,  
greenhouse

**Sowing outdoor**

bed,  
open land

**Harvest**

VEGETABLES	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEPT	OCT	NOV	DEC
Aubergine*												
Cauliflower												
Beans												
Broccoli												
Chili												
Curly kale												
Cucumber												
Potatoe												
Pumpkin												
Chard												
Carrot												
Capsicum												
Radish												
Beetroot												
Spinach												
Pointed cabbage												
Sweet potatoe												
Tomatoe												
Zucchini												
Sweetcorn												
Onion & garlic												

Time of sowing and harvest may vary depending on type and weather conditions.

There are all-season vegetables, which are better suitable for spring and others which grow better in autumn.

Please note that an early growing in the greenhouse could need a heater.

BEERIES	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEPT	OCT	NOV	DEC
Blackberry			Sowing outdoor	Sowing outdoor	Sowing outdoor	Sowing outdoor	Sowing outdoor	Sowing outdoor	Sowing outdoor	Sowing outdoor	Sowing outdoor	Sowing outdoor
Strawberry					Harvest	Harvest	Harvest	Harvest	Harvest	Harvest	Harvest	Harvest
Raspberry							Sowing outdoor	Sowing outdoor	Sowing outdoor	Sowing outdoor	Sowing outdoor	Sowing outdoor
Currant						Harvest	Harvest	Harvest	Harvest	Harvest	Harvest	Harvest

Young plants of berries, which have been planted in autumn, won't have fruit before the following year.

**HINT!** A grown seedling should be putted into the open land, when sowing in the open land is possible anyway or the ice saints period mid of may is over.

\* Aubergine and rocket should stay in the greenhouse or on the window sill.
